

Environmental Policy

Sidey specialise in the design and manufacture of PVCu Windows, Doors, Composite Doors, Composite Fire Doors and Conservatories. The company is committed to continual improvement of its business operations through the prevention of pollution and minimising the environmental impact. To achieve this aim, Sidey will seek to achieve the following objectives:

- Ensure compliance with applicable legal requirements and with other requirements to which the organisation subscribes.
- Maximise efficiency throughout all of our operations.
- Identify and monitor waste production with the aim of reducing/recycling wherever possible.
- Establish a better understanding of the environment and any impact we as an individual or company have.
- Continually improve the dissemination of information about the environment and health and safety throughout our workforce and suppliers.
- Participating in community and local initiatives on the environment.
- Commitment to the provision of renewable energy sources to all stakeholders and clients
- Work towards achieving and maintaining ISO 14001:2004 accreditation
- Integrating requirements of 9001 2008 and 18001 2007 to improve our environmental commitment and requirements

This policy clarifies our commitment to the environment and our responsibility to reduce and recycle waste, maximise efficient use of fuel and other non-renewable sources of energy and reduce our impact (carbon footprint) on the environment. Throughout senior management the company will continue to work towards objectives and targets to facilitate achievement of the environmental objectives. This policy will be communicated to all persons working for or on behalf of the organisation and will be available to the public throughout our website www.sidey.co.uk and available to the public upon request at Sidey's manufacturing department.
